Mint Millionaires

- ★ Chance of winning proportional to token holdings
- ★ \$MillionaireGame selects the winner of the millionaire prize through a smart contract-based mechanism. The process is fully automated and auditable, and the winner is chosen at random from all eligible token holders.
- ★ Timing and Frequency
 - ♥ Once \$MillionaireGame is listed on top-tier exchange and \$MillionaireGame market cap surpasses 40M USD.
 - ♥ Draw one lucky winner per month if there is a 2% increase in the token price since the previous drawing.
- ★ Reward distribution
 - ♥ The winner will claim their reward from the Prize Pool in monthly installments over 30 years.

{ Q&A }

Q Is the \$MillionaireGame a lottery?

No. A lottery ticket only has ONE chance of winning. Our token holders have **MULTIPLE chances** to win life changing wealth at every drawing.

Q Is \$MillionaireGame a ponzi scheme / scam?

\$MillionaireGame is a token with a chance of winning life changing wealth every month with the clearly specified rules. Please do your own research and only invest in tokens that you are comfortable with.

Q Is \$MillionaireGame safe?

The rules are transparent, fair, open and enforced by smart contracts.

Q What is the \$MillionaireGame total supply?

The total supply is capped at one billion tokens.

Q Will \$MillionaireGame reserves run out?

The reserves are sufficient to support operations for at least 50 years.

Q What is the presale pricing plan?

The presale price has multiple stages with increasing prices. Buying at an earlier stage would offer better returns.

Q When will I get my \$MillionaireGame?

Tokens will be available for redemption after the launch.
